## Galaxy Grill

presents a fine ethnic selection of grilled meat.  
Among all traditions, galaxy grill chose the primordial tool in  
the kitchen: wood fire.

Exploring techniques from different countries and different  
people, we express the art of grilled meat or fish.

Chef "gianni" dedicates an enormous passion to his grill.  
Skilled dominator of fire, he created a unique grilling  
technique, observing mostly the distance between flame and  
meat, and heat intensity.

Enough grilling time guarantees the exotic touch of smoked  
taste – without any toxins!

Gianni still tries to create new cuts of meat of different  
proportions.

The symbiotic relationship among meat and gianni's skills,  
lends his "grilled meat" a delicious look and exclusive taste.

The international search of spices combined with grilling  
enriches the palate, opens the appetite and invites you to  
appreciate all our dishes, still requiring only...  
an excellent wine!

Enjoy your meal!
